1. There is a "rather strong" garrison, as well as many mobilized workers on the small island of Marcara, which lies near Lastove Island. The number of neither troops nor workers is known.
2. On the right of the small settlement of Konopice on Marcara, a canal is being dug between two hills, the purpose of which is not known. Thirty meters from the shore, in front of Konopice, there are two cube-shaped concrete structures, one larger than the other. In front of the larger structure there are two large concrete pillars. Steps lead from the larger bunker down to the sea. The purpose of these structures is not known.
